Skills Summary

- **Languages**: Java, C/C++, Python, Java
- **Frontend Technologies:** HTML, CSS
- **Cyber security Technologies:** Encryption, IDS/IPS, DLP, NAC, Firewalls
- **Soft Skills**: Analytical Thinking, Problem-Solving, Team Player, Adaptability

PROJECTS

Solar System Simulation (HTML, CSS, JS): GitHub Jun '25– Jul '25

- Developed an interactive Solar System model using HTML, CSS, and JavaScript to visually display Planetary orbits.
- Implemented smooth animations and rotation logic to show realistic movement of planets around the Sun.
- Designed a clean, attractive UI that highlights each planet with clear visuals and an easy-to-understand.

Plagiarism Checker(HTML, CSS, JS):GitHub Jun '25– Jul '25

- Developed a Python-based Plagiarism Checker that compares two texts and shows similarity percentage
- Implemented text preprocessing and similarity algorithms (TF-IDF & cosine similarity) to detect copied content accurately.
- Designed a clean, user-friendly interface that allows users to input text and instantly view plagiarism results.

Bee History 3D Timeline(HTML, CSS, JS) : GitHub May' 25 – Jun' 25

- Designed a 3D interactive timeline using JavaScript (Three.js or similar) to showcase the evolutionary history of bees
- Created smooth camera controls and animations to navigate through different time periods and major evolutionary events
- Implemented a visually rich and educational UI with graphics, labels, and interactive elements to make learning about bee history engaging

Summer Training

Logic Building, Programming & Data Structures | Certificate Jun '25

- Built strong **problem-solving and logical thinking skills** by implementing solutions using structured programming approaches
- Gained hands-on experience with **core programming concepts** including loops, functions, arrays, pointers, and recursion.
- Learned and applied **fundamental data structures** such as arrays, stacks, queues, linked lists, and basic sorting/searching techniques.

Certifications

- Fundamentals of Network Communication | Coursera — Dec' 24
- Peer-to-Peer Protocols and Local Area Networks by University of Colorado System | Coursera — Nov' 24
- Packet Switching Network an Algorithms | Coursera — Oct' 24
- TCP/IP and Advanced Topics|Coursera — Oct' 24

Achievements

1st Runner-Up, Tech Aristocracy — Nov '24
Recognizedfor **innovativethinking**, **collaborative teamwork**, and delivering **impactful technical solutions** in a competitive technical event | **Lovely Professional University (LPU)**.

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; CGPA: 6.56 — Since Aug 2023
- **Bihar School Examination Board** — Bihar, India
  Intermediate; percentage: 67% — April 2021 – July 2023
- **DAV Public School** — Bihar, India
  Matriculation; Percentage 69% — April 2020 – July 2021
